Developer Downloads

All software downloads are free, and most come with a Developer License that allows you to use full versions of the products at no charge while developing and prototyping your applications, or for strictly self-educational purposes. (Unless otherwise specified, our technical support organization will not provide technical support, phone support, or updates to you for the programs licensed under this agreement.) You can buy products with full-use licenses at any time from the online Store or from your sales representative.

Oracle Database 12c Release 2 Installer - Step 3 of 9

Select System Class

ORACLE DATABASE 12c

- Configure Security Updates
- Installation Option
- System Class
- Oracle Home User
- Installation Location
- Prerequisite Checks
- Summary
- Install Product
- Finish

Desktop class

Choose this option if you are installing on a laptop or desktop class system. This option includes a starter database and allows minimal configuration.

Server class

Choose this option if you are installing on a server class system, which Oracle defines as a system used in a production data center. This option allows for more advanced configuration options.

Oracle Database 12c Release 2 Installer - Step 4 of 9

Specify Oracle Home User

ORACLE DATABASE 12c

- Configure Security Updates
- Installation Option
- System Class
- Oracle Home User
- Installation Location
- Prerequisite Checks
- Summary
- Install Product
- Finish

For enhanced security, you may choose to run Windows Services from this Oracle home with a non-administrator account. Oracle recommends that you choose a Virtual Account or specify a standard Windows User Account for this purpose.

- (•) Use Virtual Account
- ( ) Use Existing Windows User
  - User Name:
  - Password:
- ( ) Create New Windows User
  - User Name:
  - Password:
  - Confirm Password:
  - The newly created user is denied Windows logon privileges.
- ( ) Use Windows Built-in Account

Windows Security Alert

Windows Firewall has blocked some features of this app

Windows Firewall has blocked some features of Java(TM) Platform SE binary on all public networks.

Name: Java(TM) Platform SE binary
Publisher: Oracle Corporation
Path: C:\users\zaurtregulov\appdata\local\temp\orainstall2019-09-09_02-08-29am\jdk\jre\bin\javaw.exe

Allow Java(TM) Platform SE binary to communicate on these networks:

☑ Public networks, such as those in airports and coffee shops (not recommended because these networks often have little or no security)

What are the risks of allowing an app through a firewall?

Allow access Cancel
